PROFILE

Aspiring Python Developer & Web Enthusiast. Skilled in HTML, CSS, JS & Python. Udemy & DeepSeek, Grok. Passionate about solving problems & building impactful projects.

WORK EXPERIENCE

PythiaTech   2030 - PRESENT
Python Developer

- Architected and deployed a distributed machine learning pipeline using Python, Ray, and MLflow that reduced model training time by 78% while handling 3x more data volume
- Led a cross-functional team of 7 engineers to implement advanced anomaly detection algorithms that identified $2.3M in potential fraud within the first quarter of deployment

CodeCrafters Inc.   2025 - 2029
Junior Python Developer

- Built and integrated RESTful APIs using Django and Flask that streamlined internal workflows, saving the team approximately 15 hours per week
- Refactored legacy Python codebase, reducing technical debt by 40% and implementing type hints that caught 23 potential runtime errors before production
